Transaction Kiosk Solution for the Online transactions

Pushpam has developed a Transaction Kiosk for the online transactions of any kind of industry. Currently the Kiosk is operational for the travel agencies, on which there are various facilities like Air Line booking, Bus booking, Train booking, Car Booking, Cinema hall ticket booking etc. This kiosk includes a 15" LCD monitor with the touch screen, Magnetic Card reader, Thermal Receipt printer and keyboard for the easy access. Customer can do various transactions on this kiosk. The kiosk is neatly developed and elegant in shape. Pushpam can provide the kiosk, which is made in Metal or Fiber Glass (FRP), in various colors as per the customer requirement and even can do the branding with the logos and the signs of the customer company to get the leverage of more popularity in terms of brand awareness. Touch screen allows customer easy usage and user friendliness. The kiosk is equipped with the small form factor Pentium 4 Processor with 512 MB RAM and 80 GB HDD along with features like USB port, Serial Port, Parallel Port, Sound port, Network Port (RJ45), Modem Port (RJ11). Kiosk is connected to the internet with the various possible ways and uses a web based application for all kind of transactions. If you need any more information on this product please contact.....
